			title	te	We are not talking about all older persons. We want to address older persons with unwillingly decreased occupation in their daily living. We would like the standard to address all people who are experiencing unwillingly decreased activity. We would like the older person to be an active participant in their life, therefore we find the term Care difficult.	New title: Quality of support and care for older people having unwillingly reduced occupation in daily life	
		Scope	1 th para	te	The development of standards for care that is provided for older people regardless of where they live, based on the older person's individual needs and choices.	The development of standards for support and care that is provided for older people regardless of where they live, based on the older person's individual needs and choices.	
		Scope	2. th para	te	Old age care is a complex activity that requires a common understanding and cooperation between all the contributory actors to promote and develop the quality of the services.	delete: is a complex activity that add: Old age support and care requires a common understanding and cooperation between all the contributory actors to promote and develop the quality of the services.	
		Scope	4 th para	Te		Add: The term support and care is a comprehensive notion that includes social and nursing care, rehabilitation, service and other related areas.	
		Scope	4 th para	Te	Preventative measures are an important angel when supporting/ taking care of older people, we would therefore like to add preventative measures to the scope.	Add: The term care is a comprehensive notion that includes social and nursing care, rehabilitation, preventative measures, service and other related areas.	
		Scope		te	Regards the Danish community it is important to mention that this standard is useable within public procurement. We would therefore like to add the following to the scope	Add: The quality of this standard shall be of such character that it can be used in public procurement.
