

E.D.E. education

The E.D.E.-Certificate for Directors of Residential Care Homes

European Association for Directors of Residential Care Homes for the Elderly

Certificates - current situation

- Decrease of applications for the EDE-Certificate
- Primary in Austria the EDE-Certificate is well-established
- Hardly in the other countries
 - 2016: 68 Certificates/56 AUT
 - 2017: 30 Certificates/12 AUT, 3 DE, 15 SLO

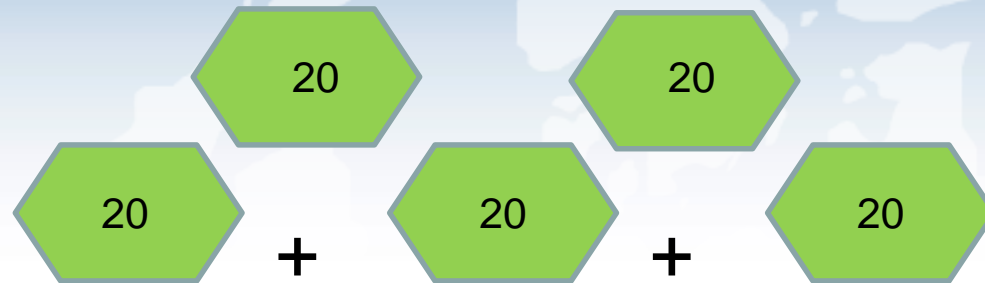

Reasons of the current situation

- For the one countries the needs to get the certificate are to less
 - Germany (want more then 800 h and an academic degree)
 - ...
- For the other one countries to high
 - Slovenia (current ~ 400 h for a national certificate)
 - ...

Proposed solution

Multistate education

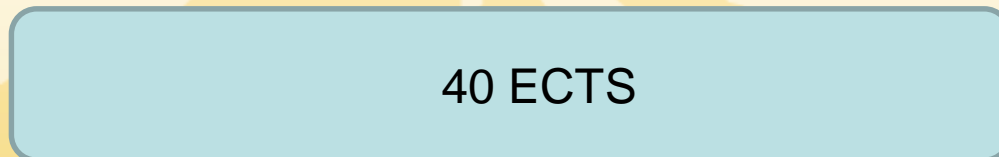

– Master-D.

– EDE-Cert

– EDE-Basic

Further Approach

1. The EDE has to settle:

- Is it important for the EDE to provide the EDE-Certificate or an Education-Programm?
- What is the overvalue for the EDE?
- Do we have Commitment hereof?

Further Approach

2. Different options:

1. A new EDE-Education-Program within an EU-Projekt?
2. Optimize the current EDE-Program, particular the Certificate for Directors for all of you?
 - counterparts to ensure the involvement of all our organisations?
3. Optimize the Programm without your involvement?
